Experience

Frontend Developer (Intern) | Certificate   Jun 2022 - Current
Frontend Simplified

- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment
- Created interactive engaging user experiences

Freelance Frontend Developer   Apr 2022 - Current
Self Employed

- Delivered 6-7 professional websites using HTML5, CSS3 (+ SCSS, BEM), JavaScript and React best practices
- Improved website performance by compressing, caching and lazy loading images and components
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world
- Created user friendly experiences for businesses and clients and consumers alike

Frontend Developer (Support)   Sep 2021 - Current
Frontend Simplified

- Supported 1,000+ students using HTML, CSS, Flexbox, JavaScript and React best practices
- Utilized debugging best practices using Google Chrome inspect element tooling
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests

Projects

Ultraverse NFT Ecommerce Store Project | Website | GitHub
- Created a fully responsive ecommerce Nft watching store with functionality

Jay-i Saas | Website | GitHub
- Developed an Ai subscription based app with stripe integration, Auth & Google Sign-In, Api request, and many more features

Promise Phone App Landing Page | Website | GitHub
- Created a fully responsive landing website for a client with Typescript, user-friendly experience that increased downloads and visibility via SEO by a margin of 23%.

Netflix Clone | Website | GitHub
- Created a fully responsive movie app with functionality (e.g. Google Sign-In, request and play functions, and more)
